Ruler  
Rotary cutting mat  
14" zipper to match Cuff fabric  
6" Purse handle and loops \*try Joann's or Michaels  
16" of ¾" wide Velcro \*Joann's  
Iron shield or Teflon pressing sheet

### Fabric list:

1 fat quarter fabric for Bag Body  
1/3 yard fabric for Cuff and zipper plackets (this is the fabric that will need to coordinate with future bag bodies...choose accordingly!!)  
¼ yard fabric for Lining  
1/3 yard French fuse interfacing (avail. From Jamie's Country Stitches)  
½ yard Décor bond fusible interfacing (available at Joann's)  
½ yard fusible fleece (medium to light weight)  
Additional fat quarters for exchangeable bag body covers

We are going to cut everything out in class on the first day, all that you need to do in preparation is to iron the French Fuse interfacing to the back of the entire Cuff / zipper fabric only. Spritz the interfacing with water and remember to press and hold for 10 seconds in each area, use a Teflon pressing sheet so that you do not scorch the interfacing.
