- Embroidery hoop – large oval (this project requires the Bernina large oval hoop (or other brand hoop of equivalent size...5 ½” x 10” stitch area), smaller rectangle hoops will not work for this exercise)
- 505 spray*
- An array of embroidery needles*
- Bobbin fill*
- Thread snips*
- Paper scissors
- Fabric marking device, chalk or water soluble
- Straight pins
- Aqua Mesh water soluble stabilizer, enough for three large oval hoopings
- Thread for the embroider design (I used two shade of olive green, two shades of persimmon and one golden yellow)

Back ground fabric for the design 20”x 20” or jacket back measuring approximately the same size (because you will be soaking the water soluble stabilizer away make sure the fabric is machine washable).

This project is an exercise in multi-hooping to create a design. You may elect to embroider this design on a jacket back or a piece of fabric and then turn it into a pillow or other decorative item.

Upon completion of the embroidery portion of this club I will demonstrate the multi-hooping aspect of V5 software; if you would like to follow along please bring your laptop and plan to stay about an hour longer.
